Address: COMMISSIONER OF PATENTS AND TRADEMARKS Washington, D.C. 20231

Serial Number: 08/141,017

Art Unit: 1502

The following is a quotation of 35 U.S.C. § 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

Claim 1,2, 5-7 rejected under 35 U.S.C. § 103 as being unpatentable over Balasz.

Balasz teaches applying hyaluronic acid for protecting tissue during surgical manipulation (column 15, lines 3-9). 0.5% solutions ar a molecular weight of 750k are disclosed (column 3, lines 50-53).

It would have been obvious to apply hyaluronic acid to tissue for the beneficial effect of protection in view of Balasz.

As to the claimed treatment prior to manipulation, Balasz's teaching of protection during surgical administration indicates application prior to manipulation.

Applicants argue "prior" is not indicative of "during". However, the phrase "... it serves as a mechanical protector of

Serial Number: 08/141,017

Art Unit: 1502

the tissue during surgical manipulation' indicates that the hyaluronic acid of Balasz must be applied prior to manipulation if it is to serve as such a protector. As to the citations to the examples, Balasz is not limited to this examples. As to applicants' argument regarding the molecular weight, the above cited molecular weight clearly reads on applicants' broad range of 50K-1.5M.

No claims allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Webman whose telephone number is (703) 308-4432. The examiner can normally be reached on Monday-Friday from 9AM to 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiners' supervisor, T.K. Page, can be reached on (703) 308-2927. The fax phone number for this Group is (703) 308-5408.
